Annual Flu Vaccination Programme

Dear Parent/Carer,

We are writing to inform you that, in order to support the delivery of this year's school flu vaccination programme, the school will be sharing limited pupil and parent/carer information with **IntraHealth**, the provider responsible for administering the vaccinations.

The information shared will include your child's name and relevant parent/carer contact details. This information is required so that IntraHealth can contact families directly with information about the flu vaccination programme and provide details on how to book an appointment for your child.

The sharing of this information is being carried out for the purpose of delivering a public health service and will be undertaken securely and in accordance with data protection requirements.

Please note that this letter is intended to inform you about this data sharing arrangement. We are not seeking consent for the sharing of this information; rather, we are notifying you of the intended sharing to support the provision of the annual flu vaccination programme.

Further information about how your data is used can be found in the school's Privacy Notice.

If you have any questions regarding this arrangement, please contact the school office.

Yours sincerely

Mrs Brierley
Cluster Finance Manager
Acting Operations Manager (Interim Cover)
